### Come for a visit...

Wood Lake Nature Center is a 150-acre natural area dedicated to environmental education, wildlife observation, and outdoor recreation. Three miles of trails and boardwalks wind through the park. The trails are either blacktop or crushed limestone, and most are wheelchair accessible during summer months. During the winter season, cross-country ski trails are open, snow permitting. To preserve the natural habitat, pets, bikes, rollerblades, and smoking are not allowed.

The Interpretive Center offers visitors a chance to learn more about plants, animals, and the environment through live animal displays, and interactive exhibits. Naturalists are available to answer questions during building hours.
