ITEM FOR COUNCIL CONSIDERATION:
Consideration of the approval of a bid tabulation and award of contract to Bituminous Roadways Inc. for the 2018 Mill and Overlay project in the amount $1,573,102, and authorization of the City Manager to approve contract changes under $100,000 without further City Council consideration.

EXECUTIVE SUMMARY:
This is the fourth year of the six year Accelerated Mill and Overlay Program. Approximately 14 miles of residential roads will receive mill and overlay in 2018. The residential roads have not received any major resurfacing since they were originally constructed in the 1970s. To prepare for this year's mill and overlay, repairs to curbs, sidewalks, catch basins, and manholes were completed in 2017. CenterPoint Energy also completed installation of new gas lines and services prior to the mill and overlay project.

For roads that are adequate candidates, mill and overlay is a cost effective maintenance solution that provides most of the benefits of new construction at a fraction of the cost. The surface is milled to remove the top 2"-3" of asphalt and a new asphalt top layer is applied improving the surface integrity of the road and eliminating patching needs. Typically the base layer of these roads is found to be in good condition. In conjunction with regular maintenance, the life of a roadway can be extended beyond the original intended life of 20-30 years.

Bids for the mill and overlay project were opened on March 8, 2018. Bituminous Roadways Inc. was the lowest responsive and responsible bidder in the amount of $1,573,102.

RECOMMENDED ACTION:
By motion: Approve the bid tabulation and award of contract to Bituminous Roadways Inc. in the amount of $1,573,102 for the 2018 Mill and Overlay project and authorize the City Manager to approve contract changes under $100,000 without further City Council authorization.

BASIS OF RECOMMENDATION:

A. HISTORICAL CONTEXT
- The residential roads were originally constructed between 1972 and 1977. A pavement management program began in 1980. That policy direction was set to protect the City’s capital investment and maintain an acceptable roadway system. The City’s ongoing preventive
maintenance program is essential in delaying the costs associated with total reconstruction.

- In September 2014, residential mill and overlay was approved in the Five-Year Reconstruction Plan for the purpose of utilizing Street Reconstruction Bonds to finance the work in place of special assessments. The bonds are paid down by an increase in the electric and gas franchise fees, effective April 2014.
- Approximately 85 miles of roadway will be milled and overlaid as part of the six year program.

B. POLICIES (resolutions, ordinances, regulations, statutes, etc):

- The City has adopted a pavement management program to maintain the quality of the road and prolong the life of the capital investment (Comprehensive Plan – Road Pavement Conditions).
- In 2013, the City Council approved an Accelerated Mill and Overlay Program to complete the remaining 85 miles of roads that have not received any major resurfacing since they were constructed. This program also includes the repair of storm and sanitary manholes and catch basins.
- An increase in electric and gas franchise fees was approved in 2013, and enacted in April 2014, to fund the Accelerated Mill and Overlay Program.

C. CRITICAL TIMING ISSUES:

- The mill and overlay work is scheduled to begin May 7, 2018, and be completed by June 29, 2018.
- Regular preventive maintenance techniques are effective in delaying costly street reconstruction projects.

D. FINANCIAL IMPACT:

- Eight (8) bids were received for the 2018 Mill and Overlay project.
- The lowest responsive and responsible bid was $1,573,102 submitted by Bituminous Roadways, Inc.
- This work is funded by franchise fees.
- A recent history of bid prices for mill and overlay:

- Additional work may be added or subtracted from the mill and overlay contract depending on actual cost of construction.

E. LEGAL CONSIDERATION:

- When the amount of purchase is estimated to exceed $100,000, sealed bids shall be solicited by public notice in the manner and subject to the law governing contracts or purchases by the City of Richfield.
- The advertisement for bid for the project was published in the Richfield Sun-Current on February 22, 2018, and on the Questcdn.com website on February 22, 2018.
- Bid opening was held on March 8, 2018. A copy of the bid tabulation is attached.

ITEM FOR COUNCIL CONSIDERATION:
Consideration of the approval of a bid tabulation and award of contract to McNamara Contracting, Inc. for the 2018 Concrete Sidewalk, Curb, and Gutter Repair project in the amount of $811,507.25, and authorization of the City Manager to approve contract changes under $100,000 without further City Council consideration.

EXECUTIVE SUMMARY:
With the implementation of the city-wide Accelerated Mill and Overlay Program, concrete repairs are concentrated in the mill and overlay areas. This will ensure the concrete repairs are completed the year before the area is scheduled for mill and overlay. The project includes replacement of cracked and heaved sidewalk, curb, gutter, and other concrete, as necessary. All catch basins and manhole structures in the area are also inspected and, if necessary, repaired as part of this project. A map of the locations for the 2018 work is attached.

Bids for the concrete repair project were opened on March 8, 2018. McNamara Contracting, Inc. was the lowest responsive and responsible bidder in the amount of $811,507.25.

RECOMMENDED ACTION:

BASIS OF RECOMMENDATION:

A. HISTORICAL CONTEXT
   - As part of the City’s street maintenance program, cracked and heaved sidewalk, curb and gutter, and other concrete work is completed each year.
   - The program was expanded in 2015 in preparation for the Accelerated Mill and Overlay Program. Concrete repairs are concentrated in the area of the next year’s mill and overlay.
   - The project includes rebuilding catch basins and manhole structures in preparation for mill and overlay.
B. **POLICIES (resolutions, ordinances, regulations, statutes, etc):**
- The project is included in the Five-Year Street Reconstruction Plan.
- In 2013, the City approved an Accelerated Mill and Overlay Program to complete the remaining 85 miles of roads that have not received any major resurfacing since they were constructed. This program also includes concrete repair of storm and sanitary manholes and catch basins.

- Per the City's American with Disabilities Act (ADA) Transition Plan, sidewalks, trails, and crossings are brought into compliance with the current ADA requirements.

C. **CRITICAL TIMING ISSUES:**
- Concrete repair work is scheduled to begin July 9, 2018, and be completed by October 5, 2018.
- Concrete repairs should be completed the year prior to mill and overlay to avoid delays to the 2019 Mill and Overlay schedule.

- Five (5) bids were received for the concrete repairs.
- The lowest responsive and responsible bid was $811,507.25 submitted by McNamara Contracting, Inc.

ITEM FOR COUNCIL CONSIDERATION:
Consideration of the approval of a resolution of support for the METRO Orange Line Bus Rapid Transit Station and Knox Avenue Transitway Design.

EXECUTIVE SUMMARY:
Background
The METRO Orange Line is a planned Bus Rapid Transit (BRT) line between downtown Minneapolis and Burnsville. The Orange Line will use roadway improvements, upgraded transit stations, Park & Ride facilities, and improved bus routes to provide fast, frequent, and reliable all-day service along I-35W. The goal is to operate with the service, quality, and reliability of rail transit while benefitting from the cost savings and flexibility of bus transit.

Richfield will have Orange Line stations at 66th Street & I-35W and at 76th Street & Knox Avenue. Final plans have been completed for these stations. Additionally, the final layout for the Knox Avenue Transitway underneath I-494 is set with plans nearing completion. Both the station plans and Transitway layout was presented to the City Council at the February 27, 2018, work session.

Metro Transit does not require municipal consent for their projects. However, since the plans must be signed by the City Engineer, staff feels it would be appropriate to have a resolution of City Council support of these plans.

Additional Project Details and Improvements
- METRO Orange Line buses will use transit advantages on Marquette and 2nd Avenues in downtown Minneapolis, providing faster service and increased capacity. South of downtown, the Orange Line will provide frequent, limited-stop service via I-35W to upgraded stations at Lake Street, 46th Street, 66th Street, 76th Street/Knox Avenue, American Boulevard/Knox Avenue, 98th Street, Burnsville Heart of the City and Burnsville Parkway.
- In the future, a second phase of the project could extend service from Burnsville to Lakeville.
- The Orange Line will provide direct connections to planned transit improvements at Lake Street and American Boulevard, and provide convenient connections to the METRO Blue and Green lines in downtown Minneapolis.
- The line will also connect with local bus service and several Park & Ride lots.
- All Orange Line stations will have upgrades in platform ticketing, information technology, and customer
RECOMMENDED ACTION:
By motion: Approve a resolution of support for the METRO Orange Line Bus Rapid Transit Station and Knox Avenue Transitway Design.

BASIS OF RECOMMENDATION:

A. HISTORICAL CONTEXT
   • See Executive Summary

B. POLICIES (resolutions, ordinances, regulations, statutes, etc):
   • The METRO Orange Line BRT is consistent with the City’s Comprehensive Plan (Transportation p. 6-39).
   • The station plans and Transitway layout were presented to the City Council at the February 27, 2018, work session.
   • The Knox Avenue alignment is consistent with the initial City Council resolution of support for the transit line from May 27, 2014.

C. CRITICAL TIMING ISSUES:
   • Metro Transit has applied for federal funding and will begin construction as early as 2019 if funding is successful.

D. FINANCIAL IMPACT:
   • There are no financial impacts to the resolution of support.
   • Project cost is split between federal, state and county funding.
   • The City is not providing any funding to the project other than limited cost of staff time for coordination during construction.

E. LEGAL CONSIDERATION:
   • The City Attorney will be available to answer questions.

ALTERNATIVE RECOMMENDATION(S):

ITEM FOR COUNCIL CONSIDERATION:
Consideration of the approval of the purchase of a station alerting system from U.S. Digital Designs in the amount of $114,500 for both Richfield fire stations.

EXECUTIVE SUMMARY:
A station alerting system is a system of hardware and software that automates a number of processes that are currently performed manually by a dispatcher. The system integrates with the dispatch software to alert firefighters of the nature and location of the call while the dispatcher is still taking information from the reporting party. This results in earlier responder notification which leads to a faster response to the incident. An added benefit is that it increases dispatcher productivity resulting in their ability to handle higher call volumes. This system is being purchased in coordination with Edina Fire and Edina 911 Communications; this purchase will also lead to added efficiencies between the two fire departments during automatic aid response.

RECOMMENDED ACTION:
By motion: Approve the purchase of a station alerting system from U.S. Digital Designs in the amount of $114,500 for both Richfield fire stations.

BASIS OF RECOMMENDATION:
A. HISTORICAL CONTEXT
- The number of incidents the Fire Department responds to has been steadily increasing and now surpasses 4,000 calls for service annually. The increased call volume puts pressure on the system to maintain high levels of service.
- Automated station alerting has been proven to decrease turnout times which results in faster response times.
- Historically, Edina Fire has been our longest standing aid partner. This system will allow us to implement additional operational efficiencies that will benefit both departments and their respective communities.
- Systems from U.S. Digital Designs are currently installed in Minnesota in Dakota and Ramsey counties, department personnel reviewed their operation and they were recommended by fire department personnel in the respective counties.
B. **POLICIES (resolutions, ordinances, regulations, statutes, etc):**
   - City policy regarding purchasing and spending requires any purchases greater than $100,000 be approved by the City Council. Additionally, Minnesota Statute 471.345, Uniform Municipal Contracting law, states that all purchases greater than $100,000 be made by sealed bid, via public notice and awarded to the lowest responsible bidder. This statute also allows for purchasing via state awarded contracts or other governmental purchasing consortiums or cooperatives.
   - U.S. Digital Designs is an awarded and approved vendor of the Houston-Galveston Area Council Purchasing Consortium (HGACBuy). The City is a member of HGACBuy and can take advantage of contracts and vendors that are members of the consortium, including U.S. Digital Designs.

C. **CRITICAL TIMING ISSUES:**
   - The purchase of the station alerting system is included in the 2018 Fire Department budget.
   - The system is being purchased in coordination with the Edina Fire Department and Edina Emergency Communications. This purchase is on the agenda for approval at the next Edina City Council meeting. Approval now would allow both cities to move forward with a coordinated system implementation.

D. **FINANCIAL IMPACT:**
   - The funds to purchase this equipment are being provided through an internal lease via the Capital Improvement Reserve Fund.

E. **LEGAL CONSIDERATION:**
   - A legally compliant purchasing process was followed by HGACBuy resulting in U.S. Digital Designs being an approved and awarded vendor of their purchasing consortium.
   - The City is a member of HGACBuy and is allowed to take advantage of purchasing via the consortium.

**ALTERNATIVE RECOMMENDATION(S):**
   - None

**PRINCIPAL PARTIES EXPECTED AT MEETING:**

ITEM FOR COUNCIL CONSIDERATION:
Consideration of the approval of a resolution endorsing smoke-free multi-unit housing within the city of Richfield.

EXECUTIVE SUMMARY:
The Richfield Advisory Board of Health (RABH) has a long history of tobacco policy and prevention work with partners like Minnesotans for a Smoke-Free Generation, Association for Non-Smokers Minnesota, and Clearway Minnesota. In Richfield, tobacco efforts have included recognition of successful retail sales compliance, the inclusion of electronic cigarettes in the City tobacco policy, and stricter cigar sales.

As affordable housing options increase in the city, this provides an opportune time for the City of Richfield to endorse a smoke-free multi-unit housing resolution that seeks to ensure the health, wellness, and safe living conditions for all Richfield residents.

RECOMMENDED ACTION:
By motion: Adopt a resolution endorsing smoke-free multi-unit housing within the city of Richfield.

BASIS OF RECOMMENDATION:
A. HISTORICAL CONTEXT
   - The smoke-free housing movement has gained significant traction over the past decade from about 50 apartments statewide in 2007 to nearly 4,000 apartments throughout Minnesota today. Unfortunately, smoke-free policy coverage at affordable housing developments and common interest communities lags significantly behind their market rate and luxury rental counterparts, contributing to health inequities for low-income communities, seniors, and people of color.
   - Community advocates, local public health, and the Richfield Advisory Board of Health believe that all Richfield residents, regardless of income, deserve a healthy, clean, and safe home environment.
   - Currently, free resources and technical assistance are available to Richfield property owners and managers interested in adopting, expanding, or maintaining a smoke-free policy. Additionally, free resources are available to support residents who are interested in quitting smoking.

B. POLICIES (resolutions, ordinances, regulations, statutes, etc):
   - A resolution adopted by the City of Richfield will:
Address and emphasize the importance and benefits of promoting smoke-free homes in our community;
Generate public attention to this issue; and
Create awareness of free resources available to support property owners, managers, and residents.

C. CRITICAL TIMING ISSUES:
   - N/A

D. FINANCIAL IMPACT:
   - There is no financial impact with the adoption of this resolution

E. LEGAL CONSIDERATION:
