ITEM FOR WORK SESSION:
Discussion of Lyndale/HUB/Nicollet (LHN) Maintenance District.

EXECUTIVE SUMMARY:
The LHN Maintenance District was established to recover special maintenance expenses in the LHN area in 1981. The current services provided are:
- Maintenance and operation of irrigation
- Limited Mowing
- Weed Control
- Trash and litter removal
- Fence maintenance
- Special features

In the past, "special features" has included design items that were unique to the District, such as:
- District Lighting
- District Crosswalks
- Benches
- Bollards
- Special Sidewalks

Most of these special features have been removed by the City and district property owners through various projects and as part of the 66th Street Reconstruction project. The only special features to remain are fences on 1st Ave and 65th Street.

With the recent redevelopment and corresponding maintenance agreements there has been a shift in responsibility towards the property owner related to items like irrigation and boulevard maintenance. In addition, there are road elements that were once considered a "special feature" going in city-wide, no longer making them "special", like planted medians.

DIRECTION NEEDED:
Staff is seeking direction on whether to continue the LHN Maintenance District or to discontinue the services provided and notify adjacent property owners of their maintenance responsibilities.

BACKGROUND INFORMATION:
A. **HISTORICAL CONTEXT**
   - The LHN Maintenance District was established in 1981 to recover special maintenance costs in the area.
   - Each year City Council assesses charges and re-establishes the district for the following year
   - Staff/Council have received informal objections for the assessments and for the existence of the special assessment district.

B. **POLICIES (resolutions, ordinances, regulations, statutes, etc):**
   - Section 825 of City Code defines services which can be assessed.

C. **CRITICAL TIMING ISSUES:**
   Direction at this meeting will:
   - Determine if city will continue to provide the services to the district, accruing charges in 2020, to be assessed in 2021.
   - If not, staff will need an appropriate amount of time to notify property owners of the changes in maintenance responsibilities.

D. **FINANCIAL IMPACT:**
   - Current charges to the District have been averaging $25,000/year.
   - Most services in the District are completed by Contractors, coordinated by City staff.
   - If the District is eliminated City staff would continue to provide limited mowing and trash removal, time and cost impacts will be discussed at the work session.
