

DP05 ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2010-2014 American Community Survey 5-Year Estimates

**Note:** This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Richfield city, Minnesota	
	Estimate	Percent
<b>SEX AND AGE</b>		
Total population	35,877	35,877
Male	17,828	49.7%
Female	18,049	50.3%
Under 5 years	2,877	8.0%
5 to 9 years	1,771	4.9%
10 to 14 years	1,771	4.9%
15 to 19 years	1,853	5.2%
20 to 24 years	2,265	6.3%
25 to 34 years	6,650	18.5%
35 to 44 years	4,989	13.9%
45 to 54 years	4,762	13.3%
55 to 59 years	2,012	5.6%
60 to 64 years	1,874	5.2%
65 to 74 years	2,316	6.5%
75 to 84 years	1,590	4.4%
85 years and over	1,147	3.2%
Median age (years)	36.4	(X)
18 years and over	28,392	79.1%
21 years and over	27,212	75.8%
62 years and over	6,126	17.1%
65 years and over	5,053	14.1%
18 years and over	28,392	28,392
Male	13,880	48.9%
Female	14,512	51.1%
65 years and over	5,053	5,053
Male	2,060	40.8%
Female	2,993	59.2%
<b>RACE</b>		

Subject	Richfield city, Minnesota	
	Estimate	Percent
Total population	35,877	35,877
One race	34,531	96.2%
Two or more races	1,346	3.8%
One race	34,531	96.2%
White	25,951	72.3%
Black or African American	3,710	10.3%
American Indian and Alaska Native	261	0.7%
Cherokee tribal grouping	0	0.0%
Chippewa tribal grouping	147	0.4%
Navajo tribal grouping	0	0.0%
Sioux tribal grouping	0	0.0%
Asian	2,298	6.4%
Asian Indian	900	2.5%
Chinese	453	1.3%
Filipino	209	0.6%
Japanese	15	0.0%
Korean	72	0.2%
Vietnamese	315	0.9%
Other Asian	334	0.9%
Native Hawaiian and Other Pacific Islander	56	0.2%
Native Hawaiian	23	0.1%
Guamanian or Chamorro	0	0.0%
Samoan	0	0.0%
Other Pacific Islander	33	0.1%
Some other race	2,255	6.3%
Two or more races	1,346	3.8%
White and Black or African American	640	1.8%
White and American Indian and Alaska Native	204	0.6%
White and Asian	200	0.6%
Black or African American and American Indian and Alaska Native	146	0.4%
Race alone or in combination with one or more other races		
Total population	35,877	35,877
White	27,117	75.6%
Black or African American	4,582	12.8%
American Indian and Alaska Native	690	1.9%
Asian	2,532	7.1%
Native Hawaiian and Other Pacific Islander	79	0.2%
Some other race	2,316	6.5%
HISPANIC OR LATINO AND RACE		
Total population	35,877	35,877
Hispanic or Latino (of any race)	6,976	19.4%
Mexican	5,618	15.7%
Puerto Rican	23	0.1%
Cuban	21	0.1%
Other Hispanic or Latino	1,314	3.7%
Not Hispanic or Latino	28,901	80.6%
White alone	21,287	59.3%
Black or African American alone	3,703	10.3%
American Indian and Alaska Native alone	255	0.7%
Asian alone	2,298	6.4%
Native Hawaiian and Other Pacific Islander alone	33	0.1%
Some other race alone	27	0.1%
Two or more races	1,298	3.6%
Two races including Some other race	26	0.1%

Subject	Richfield city, Minnesota	
	Estimate	Percent
Two races excluding Some other race, and Three or more races	1,272	3.5%
Total housing units	15,518	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
